31. Briefly explain your reasons for applying to become a ISC Volunteer:

I have been serving as a scientist for more than 23 years and experienced in the field of silkworm physiology, silkworm rearing, popularization of technology etc. Worked very closely with the farmers of Karnataka and Tamil Nadu and achieved success in changing the mindset of farmers while preparing them to adopt new technology which was alien to them until then. This was possible through on-site demonstration to a large number of farmers leading to repetitive results. I am a National Technology Day Award (NRDC) winner in the year 2004 and received World Intellectual Property Organization (WIPO), Geneva Certificate of Merit in the year 2005 for the invention of 'Sampoorna', a phytoecdysteroid from Caryophyllaceae family of plants used for hastening larval maturation and synchronization of spinning in silkworm. I am also the recipient of Institute Foundation day award from CSRTI, Mysore for outstanding contribution of sericulture research, in the year 2008 and Annual award winner of NSSO in the year 2009-10 and 2010-11. I was instrumental in drafting the Central Silk Board Silkworm Seed Regulations and involved in the implementation of the provisions of the Central Silk Board (Amendment) Act, 2006. I firmly believe that this rich experience would be of great value in support of my offering to serve as a ISC Volunteer.

32. I certify that the statements made in answer to all the above questions are true, complete and correct to the best of my knowledge. I understand that any misrepresentation or omission made in this Personal History Statement form may render my candidature invalid or, if serving as a ISC Volunteer, liable for early termination of my contract. I have read and understood ISC's Conditions of Service and accept them in principle.
